

## COVID-19 INFORMATION

# CHILD CARE FOR CORE WORKERS

### Overview

The Alberta government has reopened select licensed child care centres to provide child care for core service workers. These spaces are available to anyone who works in the critical areas outlined as essential by government. A full list of those businesses and operations can be found at [alberta.ca/essential-services.aspx](https://alberta.ca/essential-services.aspx).

Parents who work in these areas can contact the child care centres that are open in their communities. As new centres become available, this list will be updated and available at [Alberta.ca/COVID19](https://Alberta.ca/COVID19) (under Info for Albertans).

The centres listed below have reopened as of **April 15, 2020** and are listed by the following communities: [Calgary region](#), [Central region](#), [Edmonton region](#), [North region](#), [South region](#).
