Alberta highways work because we do. Without us, Emcon would not profit from their government contract providing safe transportation for Albertans. Yet Emcon's approach in bargaining is to delay a settlement, devalue our work, and even threaten to end their Alberta contract.

We, the staff at Emcon deserve better. We request that Emcon provide the financial disclosure that our negotiations team has asked for, that Emcon stop proposing wages that won't even meet cost of living increases, and that they stop hiding behind finances as an excuse not to settle an agreement which we know they can afford.
