We the undersigned members of AUPE working for Edmonton Catholic Schools are looking for respect and value for our work. We have kept schools running and clean during an unprecedented pandemic. We have seen Alberta's Finance Minister say that other public sector workers deserve to have their wages cut and we are worried about pressure from the provincial government on ECSD to propose wage cuts for us. We are united in rejecting any wage cuts and stand with our negotiations team to settle a fair collective agreement.

* Petition will be presented during future negotiations with a minimum 75% of the membership signing on.
