

Leonard Goulet responses
Candidate for Strathcona County Council Ward 2

i am in total support of the initiatives of living wages and based on what you have suggested there is nothing unreasonable about keeping it all in house.

I will oppose the legislation against municipal staff.

the shortfalls can be addressed through fiscal restraint and focusing on the needs of our community as opposed to what we want.

Question #5

I'm not for mandates of any kind, nor am i for passports. and realistically, if vaccines are no guaranty of cure or transmission and government does not offer compensation for side effects it should remain an individual choice. Inevitably it will only create distrust and mental health issues.

isreal is now providing a fourth shot and are experiencing another wave, I ask myself what is next? Boosters and yearly shots with restrictions and passport still in place. Unfortunately we are bound by a social contract to preserve life in our communities and ultimately our choices determine the outcome, we just don't know the metrics of such decisions.

Question #6

I would advocate for reduced fares on buses and fees for any service for AUPE workers.
