

MEMBER UPDATE

Introducing the new member ID lookup tool

It's important that members can find resources and information as they need it, which is why AUPE is always working to improve accessibility.

We are pleased to report that we have launched a new tool for members to look up their AUPE member ID number. Members use their ID numbers for many important things, including creating their MyAUPE account, signing up for AUPE education courses, and accessing member discounts at select retailers.

The new tool can be accessed at <https://aupe.org/member-id-search>. In order to search your member ID, you will need the following information:

- First name
- Last name
- Home postal code
- Personal email address

If the information you provide matches the information in the AUPE directory, meaning the information you've previously shared with us, you will be sent an email with your member ID number. If the tool is unable to provide your ID number, please contact the AUPE Member Resource Centre at 1-800-232-7284.
