# TAKE AUPE'S NEW WORKING SHORT SURVEY

Your AUPE Occupational Health and Safety Committee has launched a new survey to help you with the short-staffing issues you face at work.

We will use the survey results to create a public campaign to combat employers who deliberately and deplorably keep their staff working short. All responses will be kept anonymous.

**The survey will close Monday, April 10.**

Join us! We want to hold every employer accountable for not giving you, your coworkers, your clients, and the public the resources necessary to provide effective and efficient services.

Scan this code with your phone to take the survey
