AUPE 

IT SERVICES

I can't imagine going back to a time before modern technology, and I bet you can't either. IT professionals like me are busier than ever to keep Albertans working.

But we are struggling to keep up. This is especially true in our hospitals now that Connect Care is rolling out. Can you imagine how worse it would be if the government cut my job and gave it to a private company outside Alberta?

Running IT at a hospital should not be done from a call centre. Losing us could create chaos in our health care system and jeopardize Albertans' personal health records.

AUPE members like me are proud of the work we do. Let's support each other and stand up for public services.
